GROHE NOW ENTERS THE WORLD OF CERAMICS **CREATING PERFECTLY COORDINATED BATHROOMS**

"We believe that a complete bathroom solution is the key to customer satisfaction."

MICHAEL RAUTERKUS, GROHE AG CEO

GROHE CERAMICS: MADE TO MATCH IN FORM AND FUNCTION

Finding a perfect match isn't easy. That's also true for the bathroom. Because our ceramics come with a selection of recommended combinations that fit our faucets, showers and sanitary systems they complement one other in both design and technology: the overwhelming variety of options is distilled into one simple choice. Save yourself the trial and error and make only one easy choice: for a perfect match.

OUR ASPIRATION IS PERFECTION IN EVERY DETAIL **THAT'S WHY WE CREATED PERFECT MATCHES**

With GROHE Ceramics there is no need to rely on guesswork. Our dedicated design team looked at each individual product to determine which faucet and basin shapes look best together, guaranteeing you a seamless, complete design aesthetic. In addition, we physically tested our products against three criteria to make sure every suggested combination offers you a perfect match:

- Easy installation
- No splashing during handwashing
- Plenty of space for optimum comfort

"We wanted to establish a natural relationship between two objects."

MICHAEL SEUM, GROHE VICE PRESIDENT DESIGN

WE ARE CONVINCED THAT TWO ELEMENTS CAN ACHIEVE PERFECT BALANCE

LET OUR IDEAL COMBINATIONS SURROUND YOU WITH SERENITY

"Only a perfect match can give design the presence it deserves."

MICHAEL SEUM, GROHE VICE PRESIDENT DESIGN

AS PART OF THE STRONG LIXIL GROUP THIS VISION COMES TRUE **BY COMBINING OUR KNOWLEDGE IN DESIGN AND TECHNOLOGY**

Together we're stronger. We combined our GROHE expertise as a world leader in sanitary fittings with the unique technology and insights from LIXIL's other Water Technology brands.

TRIPLE VORTEX
THE POWER OF THREE: CLEAN AND SILENT

Unlike other toilets, GROHE's innovative Triple Vortex flush system creates a powerful but silent vortex of water that swirls to cover and clean the whole of the bowl. Despite its power, this effective system is unlikely to splash and has low water consumption, with a dual flush option that uses just 5 l of water and only 3 l for a short flush. Instead of one or two water outlets, the Triple Vortex system flushes from three outlets to create a powerful suction that leaves nothing behind.

— So powerful, it leaves nothing behind
— Available for all toilets of Euro Ceramic and Cube Ceramic range

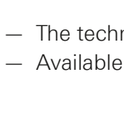

TRIPLE VORTEX

RIMLESS TECHNOLOGY LEAVES BACTERIA NOWHERE TO HIDE

With GROHE rimless technology, every surface of your toilet is easy to reach and effortless to keep clean, even in places you can’t see. It makes bacteria hiding in corners and crevices under the rim a thing of the past. GROHE rimless technology leaves bacteria nowhere to hide.

— The technology for fast and easy cleaning
— Available for all toilets of all three lines

RIMLESS TECHNOLOGY

SOFT CLOSE SEAT
GENTLE AND QUIET

Both seat and lid optionally have a gentle and quiet soft-closing mechanism to add a little more comfort. This user-friendly mechanism is durable and reliable making this WC an excellent choice for your project.

— Available for all toilets of all three lines

QUICK RELEASE SEAT
EASY REMOVAL
FOR EASY CLEANING

GROHE quick release seats come equipped with a special hinge that allows for easy removal of the toilet seat. It makes hidden spaces easily accessible for cleaning to keep the WC a hygienic and germ-free place.

— Available for all toilets of all three lines
