Pure Freude an Wasser

GROHE

# THE FULL SOLUTION
## FOR PUBLIC BATHROOMS

GROHE Eurosmart Cosmopolitan E

# THE BENEFITS OF GROHE TOUCHLESS FOR YOUR PROJECTS

**WATER SAVING**
Reliable, proven and precise sensor technology prevents water loss. The thermostatic control available for wall-mounted basin and shower mixers is a particularly smart solution. It delivers water at your desired temperature within a fraction of a second and offers safe scald protection for all users.

**DESIGN**
A characteristic design feature of the Eurosmart Cosmopolitan E series is the 7 degree angled spout of the basin faucets. This creates extra space below the flow control for washing hands and increases user comfort.

**HYGIENE**
Touchless activation eliminates a potential source of cross contamination and spread of germs.

**AUTO FLUSH, THERMAL DESINFECTION & CLEANING MODE**
Safety and hygiene is enhanced thanks to simplified settings for automatic flushing, thermal disinfections and cleaning stop function.

**SPECIFIC ADJUSTMENTS FOR EVERY APPLICATION**
Detection range and shut-off delay can be adjusted depending on specific requirements comfortable via remote control. Selected products with Bluetooth® communication boast a special feature: They can communicate with smartphones making it easier than ever to read out consumption data and set a variety of functions.

# EUROSMART COSMOPOLITAN E
## THE COMFORT OF A PUBLIC BATHROOM – WITHOUT COMPROMISING ON HYGIENE

Our touchless range Eurosmart Cosmopolitan E offers solutions for Basins, Showers, WC's and Urinal's. Enjoy the benefits of a public bathroom – completely touchless. Avoiding the spread of germs through touchless use, thermal disinfection and hygienic flushing.
