GROHE EUPHORIA SMARTCONTROL SHOWER SYSTEM

new

YOU'RE ONE STEP AWAY FROM A **STUNNING SHOWER EXPERIENCE**

GROHE EUPHORIA SMARTCONTROL 310 SHOWER SYSTEM: COMBINING THE ESSENTIAL ELEMENTS OF A GREAT SHOWER

Whether you are looking for stylish design or functionality – or perhaps just ultimate control: the GROHE Euphoria SmartControl 310 shower system has it all. Its beautiful wide Rainshower 310 SmartActive head shower in sparkling chrome combines a powerful jet spray with a soft, refreshing spray. The hand shower can be individually positioned to any height, thanks to the fully adjustable shower holder: ideal for taking a shower without getting your hair wet.

Perfect control comes with the Grohtherm SmartControl with its intuitive “push, turn, shower” operation. This makes it simple to switch between two different spray patterns and the hand shower – or choose two at once if you prefer.

With GROHE TurboStat thermostat technology you can set your desired temperature and then enjoy perfect comfort, knowing it will always remain constant. Every GROHE SmartControl comes equipped with CoolTouch technology. This means that scalding on hot surfaces is impossible – just one more of the many benefits that you can enjoy with the Euphoria SmartControl shower system.

THE POWER BEHIND YOUR **PERFECT SHOWER**

Enjoying a refreshing and personalised shower has never been easier. Just push the button to choose your preferred shower spray. GROHE SmartControl lets you switch between two different shower head sprays and a hand shower. Perhaps you'd prefer two sprays at the same time? No problem, just activate both buttons and enjoy.

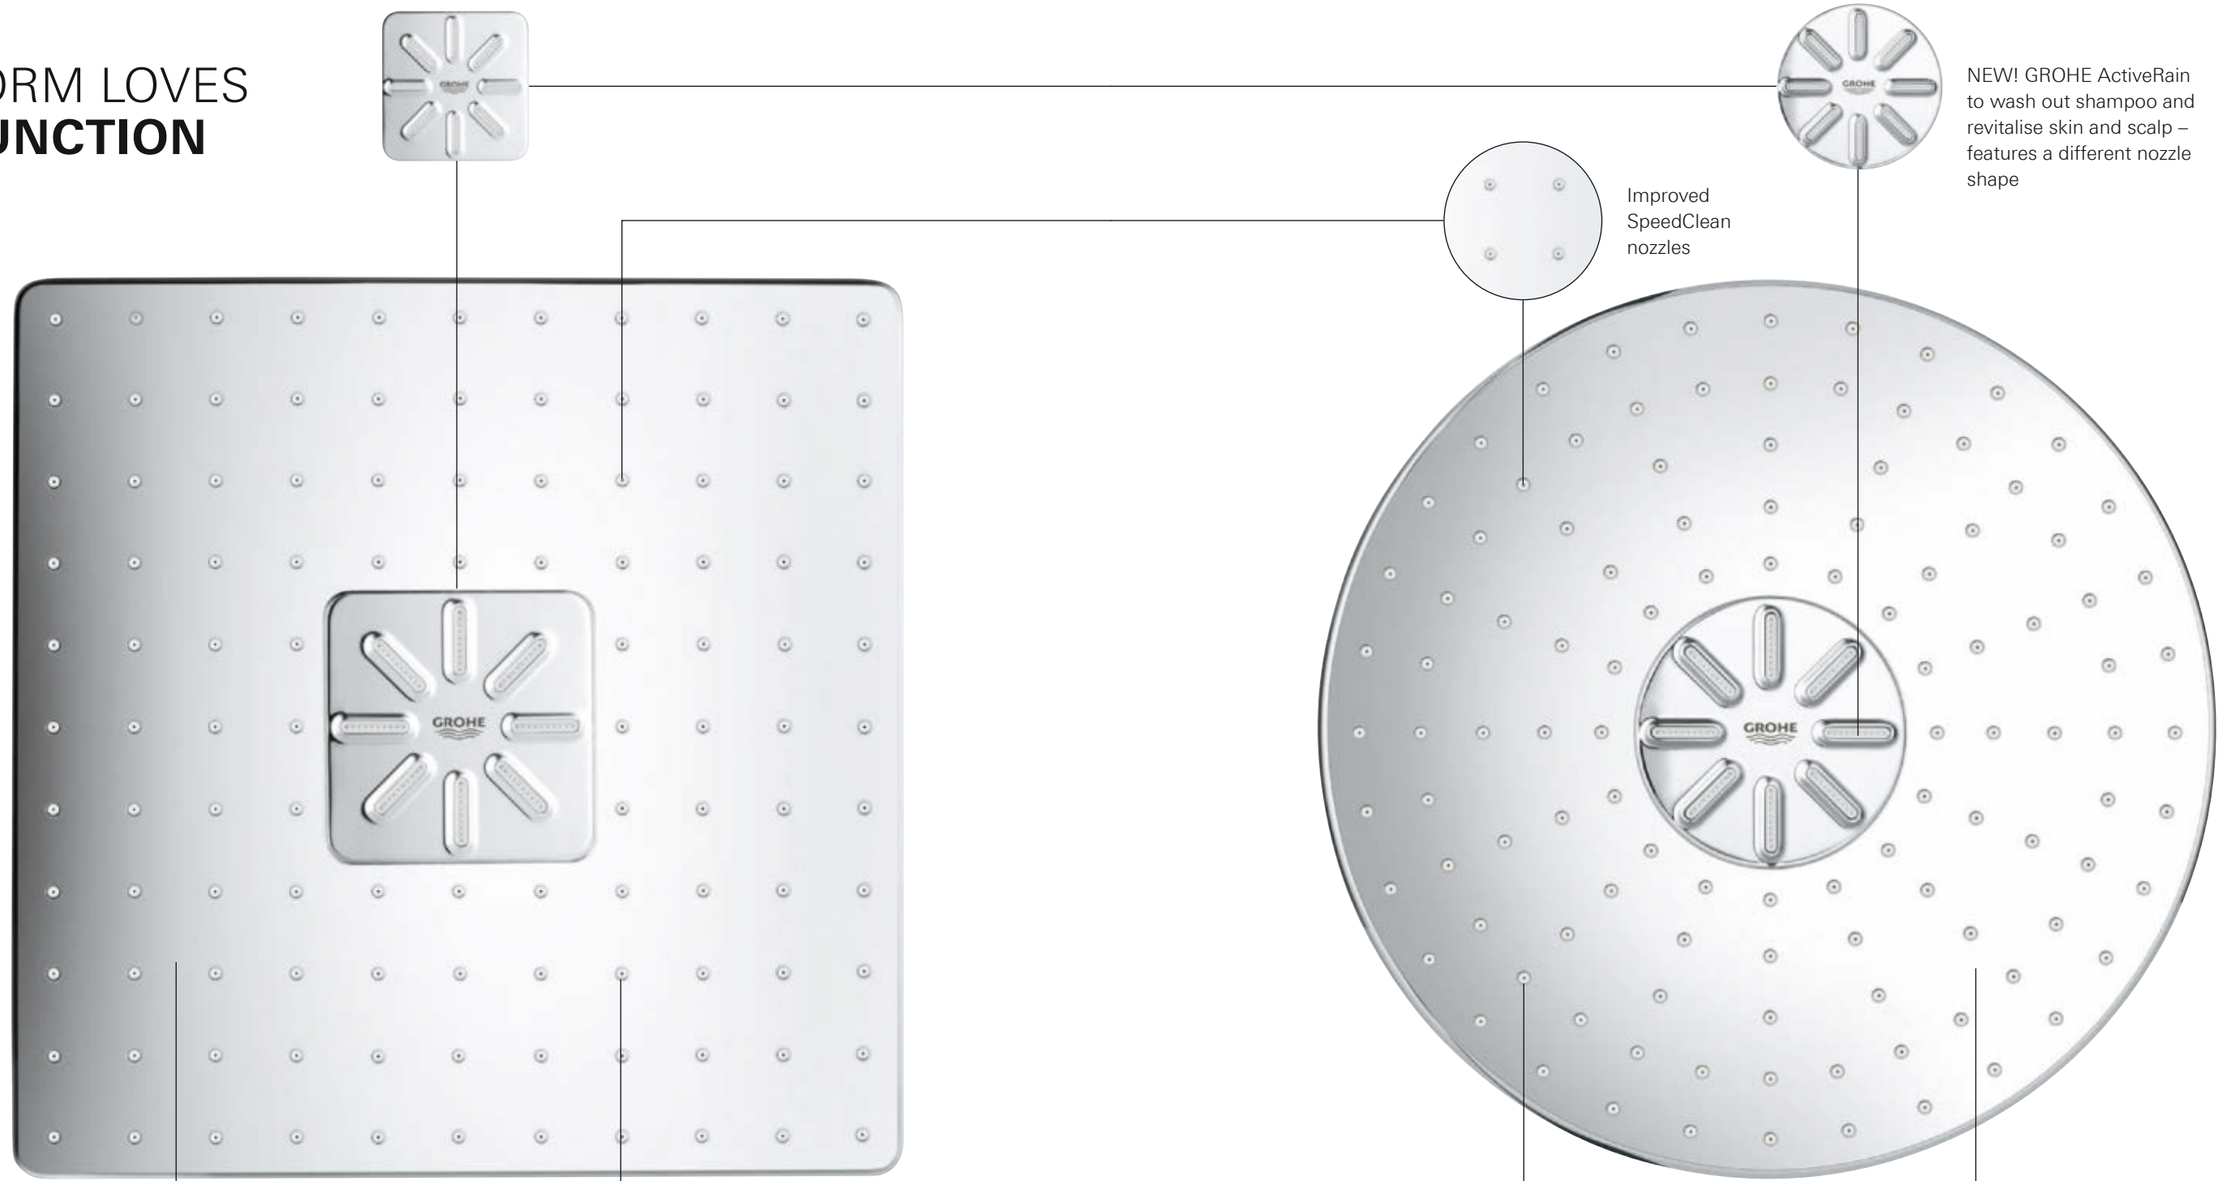

Now turn the GROHE ProGrip handle to adjust the water flow: from a gentle shower to a powerful spray. Your preferred setting is stored – perfect if you want to pause the shower or till the next time you use it. The innovative GROHE SmartControl technology offers spray selection and water control in one.

TEMPERATURE
GROHE TurboStat technology lies at the heart of this shower system. The thermoelement's unrivalled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower.

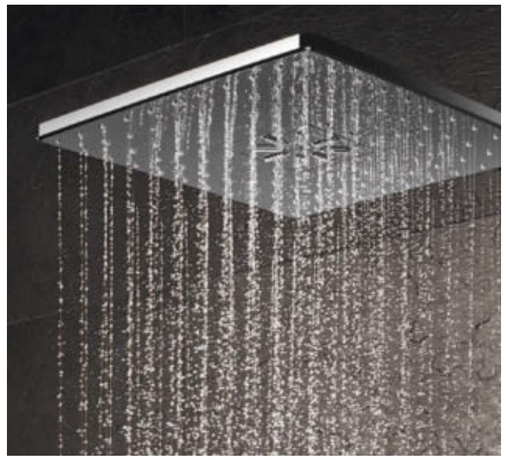

START / STOP & VOLUME
The innovative GROHE SmartControl technology lets you choose your preferred spray pattern – or a combination of spray functions – as well as adjust the water flow to just the right amount. Nothing could be simpler.

FORM LOVES **FUNCTION**

RINSE AWAY SHAMPOO
RINSE AWAY STRESS

Choose between a gentle summer rain and a downpour – at the touch of a button. The central GROHE ActiveRain spray delivers a powerful spray pattern that rinses away every trace of shampoo, quickly and effectively, and stimulates your scalp for a tingling clean sensation. Or switch to the GROHE PureRain spray and relax under a soft, refreshing rain shower.

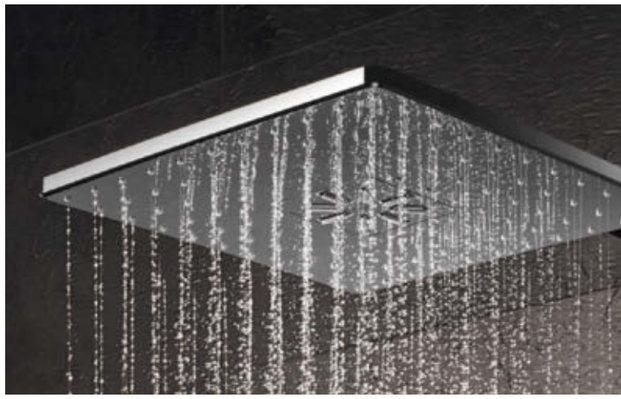

THE **PERFECT FINISH** FOR EVERY SHAPE FROM ROUND TO SQUARE

Once you've decided on the perfect shape of your Euphoria SmartControl 310 shower system, it's time to think about the kind of finish you want. Choose between classic shining chrome and subtly elegant MoonWhite acrylic glass.

EUPHORIA SMARTCONTROL 260 SHOWER SYSTEM: EVERYTHING FROM RELAXATION TO INVIGORATION

The GROHE Euphoria SmartControl 260 with its two SmartControl buttons provides perfect control of the twin functions: the Euphoria 260 head shower and the hand shower.

Earning its name every time you step under the shower, the Euphoria 260 has a special button centred in the middle of its shining, chrome-plated spray face. This allows you to choose between different spray zones, adjusting the width of the spray and the power of the water flow.

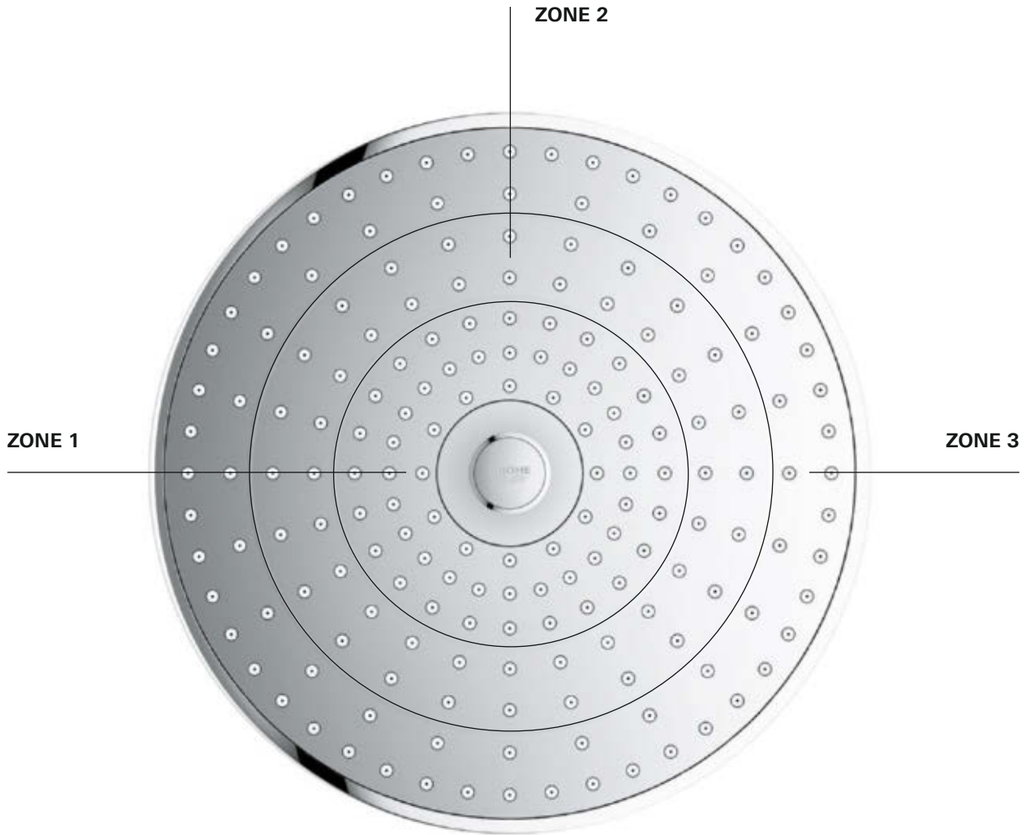

From the full face Rain spray to the SmartRain spray, then the Jet spray. As often as you like…

THE ANSWER LIES IN **SPRAY ZONE ADJUSTMENT**

Three zones of showering pleasure at your fingertips. Transform from one to the next with a turn of the button. Simply by continually turning the button you can enjoy the powerful Jet spray, followed by the wider SmartRain spray for an energising yet relaxing effect and on to the full face Rain spray for a soft summer rain feeling. Continue turning to travel through all three zones again.

MAKE ROOM FOR SHOWER ENJOYMENT

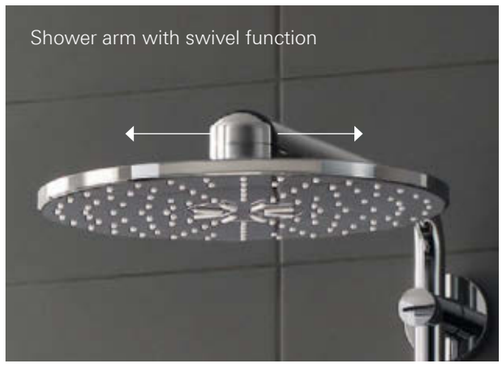

You may not have the luxury of space in your bathroom, but you can still enjoy the luxury of having the best of both worlds. The Euphoria SmartControl 260 shower system in combination with the Euphoria 260 head shower & bath spout is the solution for small bathrooms where there's no room for a shower cabinet and a bathtub. With three buttons, it gives you control over the Euphoria 260 head shower and the hand shower, as well as controlling the spout to fill the bathtub.

MORE BENEFITS. **MORE SHOWER PLEASURE**

We've put a lot of thought into our new GROHE Euphoria SmartControl shower system: the result is a range of features that make the Euphoria more convenient and more enjoyable to use. The shower arm has a swivel function that allows you to rotate the showerhead through 180° to achieve the perfect angle. And the fully adjustable shower holder allows the hand shower to be positioned individually at the ideal height.

We have made the sleek Grohtherm SmartControl body smaller and more compact to offer more space in the shower. And because we want you to enjoy your shower as quickly as possible, we came up with the GROHE QuickFix. This allows the position of the upper bracket to be altered during installation of the shower rail. The advantage: the upper bracket can be installed easily and quickly by utilising existing drilled holes.

DISCOVER THE NEW STANDARD IN EXPOSED THERMOSTATS **GROHTHERM SMARTCONTROL**

We are proud to present our Grohtherm SmartControl: a major new development in exposed thermostats. Available as separate units, Grohtherm SmartControl exposed thermostats combine the design of GROHE and the comfort of SmartControl. We've given it a compact shape to offer more space under the shower and its EasyReach tray makes plenty of room on top for shower accessories. A forward-facing thermostat button makes operation from the front most convenient. And like all GROHE thermostats, Grohtherm SmartControl comes equipped with TurboStat for precise temperature control and 100 % CoolTouch to keep thermostat surfaces at a safe temperature and avoid scalding.

The Grohtherm shower thermostat comes equipped with one SmartControl button. It is also available as a shower set, in combination with a 600 mm or 900 mm shower rail and the Euphoria 110 massage hand shower.

The Grohtherm SmartControl exposed thermostat for the bathtub comes with two SmartControl buttons: to control the bathtub spout and to operate a hand shower.

Try combining the GROHE PureRain spray with the stimulating TrioMassage. Or switch to the hand shower with the push of a button. Everything is possible, all is enjoyment. With its intuitive buttons, GROHE SmartControl gives you all you need to be completely in your element.

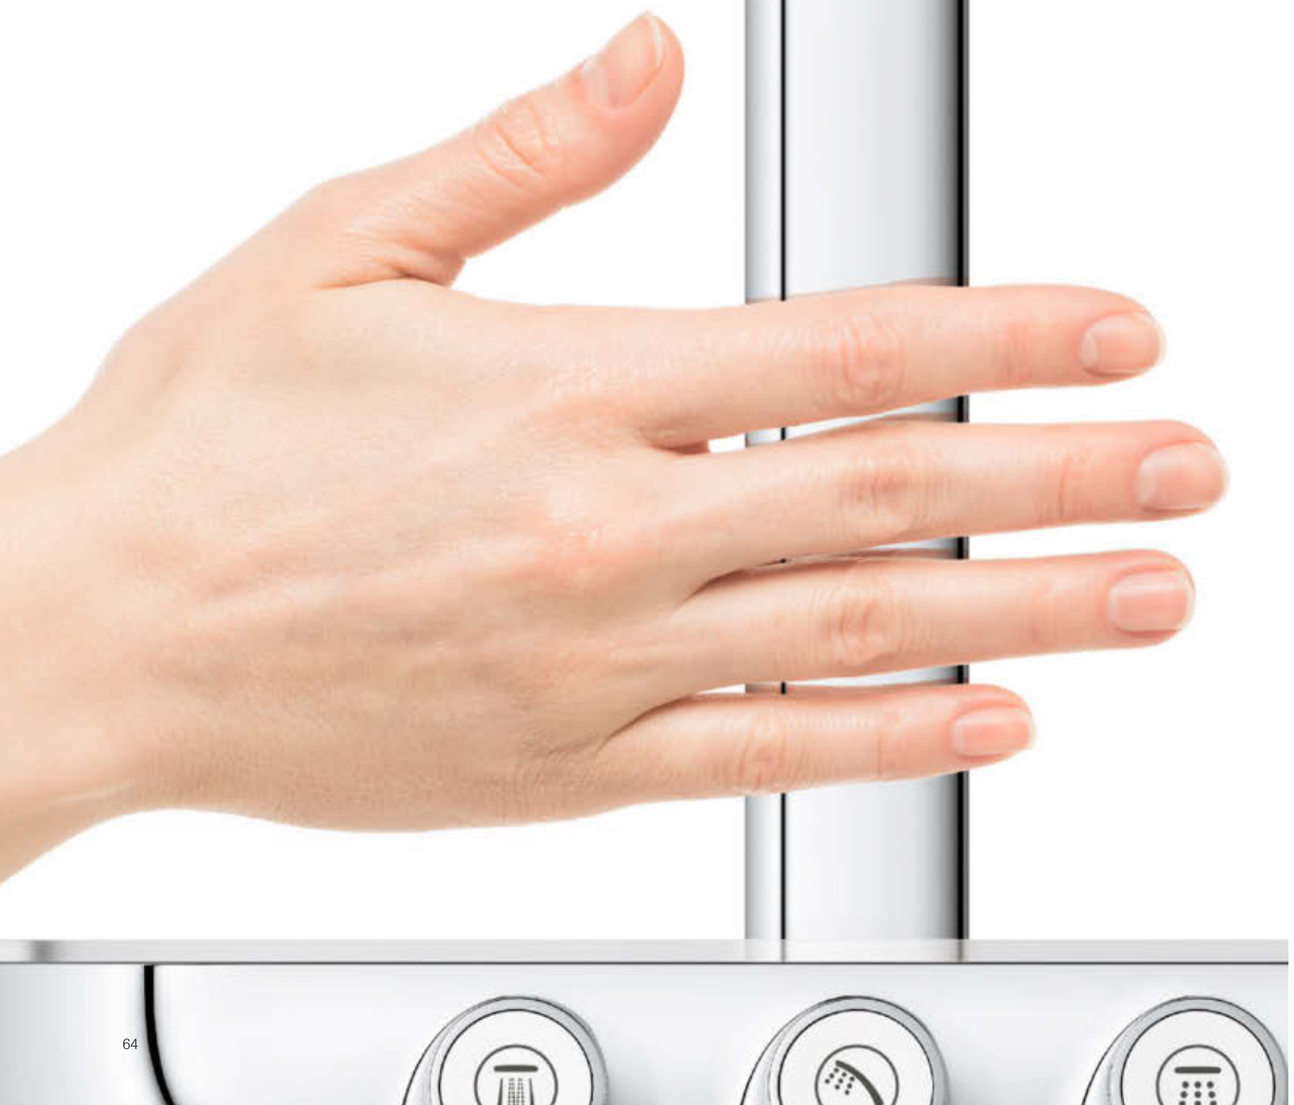

THE PERFECT **FINISH**

GROHE SmartControl comes in two stylish finishes: classic chrome and, for a subtly elegant design statement, MoonWhite.

COMFORT
IN EVERY DETAIL

At GROHE we never stop thinking about ways to make your time under the Rainshower SmartControl shower more enjoyable. Safer too – even when you don't even notice. Take for example the shower rail. Beyond just looking good, we've made sure that the casing of the rail always remains at a comfortable temperature, never exceeding the temperature of your shower.

WHEREVER YOU LOOK
IT LOOKS GOOD

We are proud of the many beautiful features that we have given our Rainshower SmartControl shower system. Starting at the top: our stunning Rainshower 360 shower head. Its unique, extra-wide and ergonomic shape is designed to offer complete, all-body coverage, extending over your shoulders for the luxury of an all-surrounding shower. Moving down the slender shower rail, note the elegant, extremely flat design, set off by the minimalistic wall bracket.

And finally, the thermostat of the Rainshower SmartControl, with its shining, all-metal body and organic design, inspired by nature: the showpiece of our shower system.

MY WAY
OF SHOWERING

GROHE SMARTCONTROL COMBI SHOWER SYSTEM

YES, YOU CAN HAVE IT ALL

THE BEST OF BOTH WORLDS: **GROHE SMARTCONTROL COMBI SHOWER SYSTEM**

Flexibility best describes the reason for choosing the GROHE SmartControl Combi shower system, which offers a range of different installation options and possible combinations.

This means for example, that you are free to position the thermostat either below the showerhead or, if you choose, away from the central axis – or even on one of the side walls of the shower. Flexibility also extends to the way you can combine the thermostat with other GROHE head, hand or body showers, creating your own personal shower experience. You also have the option of turning your bath into a shower – by combining the SmartControl thermostat with a bathtub inlet and a hand shower.

Like the GROHE SmartControl Exposed, the ‘excealed’ solution is also available in Duo and Mono versions and offers shelf space for shampoo and shower gel. With the GROHE SmartControl Combi shower system, the piping runs within the wall, connecting the SmartControl thermostat and the shower head. No shower rod means that cleaning is effortless – just one more of the pleasures you can expect from the GROHE SmartControl Combi shower system.

MORE SPACE, MORE FREEDOM **TO ENJOY**

THE NOT-SO-HIDDEN BENEFITS: **GROHE SMARTCONTROL CONCEALED**

Space – we'd all like to have more of it, especially in the shower area where it is often in short supply. So when you have the luxury of planning your shower from scratch, GROHE SmartControl Concealed is a wonderful option. With its concealed installation and exceedingly slim design, GROHE SmartControl Concealed offers more space under the shower and an uncluttered, clean look.

Freedom of design too: GROHE SmartControl Concealed also offers a number of design variants. A wide selection of suitable trim sets and showers, available in both round and square forms, ensures that the style chosen for the bathroom extends seamlessly into the shower area.

It also offers additional benefits of a practical kind: cleaning is faster and more convenient, thanks to the flat, streamlined design.

Of course, GROHE SmartControl Concealed also offers the many features shared by GROHE SmartControl Exposed and the GROHE Combi shower system: from precise and intuitive volume and temperature control to your choice of shower sprays at the touch of a button.

Beginning back in early 20th century Japan, LIXIL is today the most comprehensive company in our industry, with a unique portfolio spanning everything from technologies that revolutionize how we interact with water, to a full lineup of interior and exterior materials and products for houses and major architectural projects. Operating in 150 countries, LIXIL companies design and manufacture products that are used by more than a billion people around the world every day.

The world is changing rapidly, and LIXIL companies are helping to shape it. Across our brands and technologies, we design and manufacture tomorrow's living solutions, today. From developing smart innovations in people's homes and offices, to redefining the world's most famous city skylines, LIXIL products are transforming the spaces in which we all work, learn, travel, relax, and live.

Alongside GROHE in LIXIL's family of world-class brands are American Standard, INAX, DXV by American Standard and Permasteelisa.
