Hafele
Reassuring Expertise

"For almost 10 decades, we've been helping people make more of their homes.

Established in Germany, and now operating worldwide, we specialise in the fittings, hardware and systems that improve the way your home, works. So when you choose our products as part of your new or reformed home, you know you're getting the benefit of extensive knowledge and decades of experience.

And we're still a family business, owned and managed by family members who really care about the products and service we provide. You can rely on our commitment to the highest standards of quality and reliability, founded on a long tradition of German engineering where attention to detail is second nature.

All our home improvement ideas are built to last – day in, day out – we want you to get the very best from every corner of your home, for many years to come."

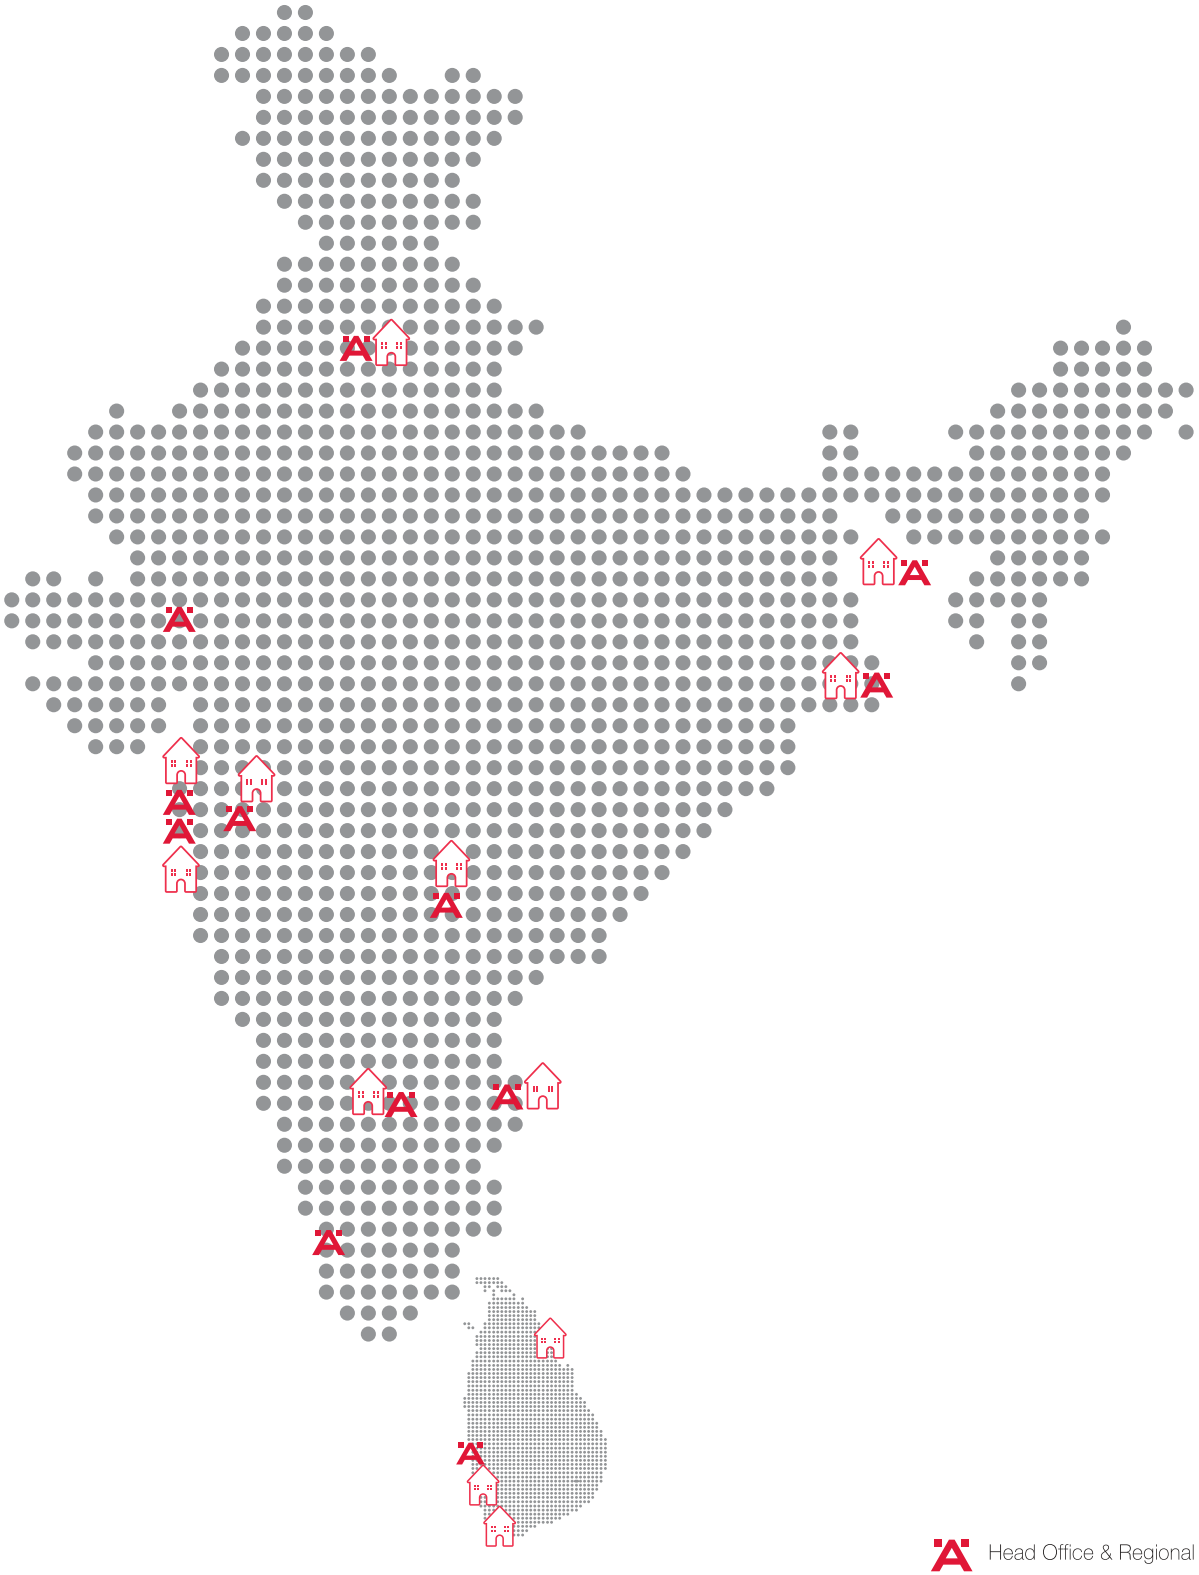

Hafele Worldwide

With its origin in 1923 in a small town named 'Nagold' from the Swabian region of Germany that nurses a passion for hardware technology, it is no surprise that Häfele has lived up to its roots through a successful presence in the architectural and furniture hardware industry for over 9 decades now. Today, Hafele's worldwide penetration includes 38 subsidiaries across Europe, America, Asia, Australia and New Zealand. With these subsidiaries and numerous other sales organisations, Häfele operates in over 150 countries. The Häfele headquarters, 4 manufacturing units and 10 sales offices are located within Germany; while 1 manufacturing unit is located at Budapest, Hungary. The company also owns one of the largest and most sophisticated warehouses in its home country. The Häfele worldwide workforce is empowered by a base of over 8100 employees.

The group services over 150,000 customers across the globe through its extensive range of hardware products and a comprehensive logistics system. In addition to this, Häfele also provides consultative services to its customers, educating and advising them about buying the correct hardware as per their requirements. With this level of market penetration and ability to handle worldwide demand, it comes as no surprise that the company is an authority in the segment of home interior solutions; what is pleasantly surprising, though, is that in spite of its size, Häfele still remains a family owned and run business with a unique, friendly and value-centric work culture which is strongly followed among all its subsidiaries.

Hafele India

Head Office & Regional Offices

Hafele Design Showrooms

Häfele India is a wholly-owned subsidiary of the Häfele Global network and has been operating in India since 2003 under the leadership of Mr. Jürgen Wolf (Managing Director). The ability of the company to understand the diverse Indian market has made it an authority in the field of architectural hardware, furniture and kitchen fittings and accessories. The company also has a strong presence in synergized product categories namely Home Appliances, Furniture Lighting, Sanitary and Surfaces catering to the focused demand from these industries.

The subsidiary has a strong nation-wide presence with offices in Mumbai, Pune, Ahmedabad, Bangalore, Chennai, Hyderabad, Delhi, Kolkata and Cochin. It has full-scale operations in Sri Lanka and Bangladesh with Regional offices and Design Showrooms in both the countries; and has also spread its operations to other regions of South Asia including Nepal, Bhutan and Maldives.

Häfele's design showrooms are hubs of international home interior trends and cutting edge designs presented in a world-class environment, where customers can see home solutions in their inherent applications. These showrooms function as a one-stop-shop for all home interior and improvement needs - from providing in-depth technical advice to kitchen and wardrobe designing services through a team of experts stationed at the showroom.

Häfele India services its customers with a base of over 1300 employees, a well-networked Franchise base of over 130 shops along with over 1000 dealers situated across South Asia. The subsidiary has a sophisticated Logistics centre in Mumbai along with distribution centres in Delhi, Bangalore, Kolkata and Colombo respectively.

6 CONTINENTS

HÄFELE BERLIN ixconnect

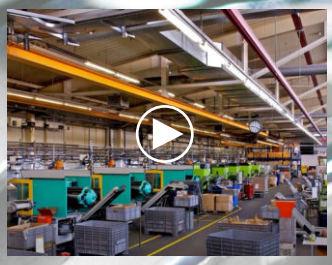

This is where we manufacture our Ixconnect range, products such as Minifix, Rafix, Maxifix and many additional connectors for the industry, along with numerous shelf support systems. Over 8.5 million parts are produced per day and in the case of Minifix we produce in excess of 3.2 million zinc casings per day.

Häfele Berlin primarily produces connecting fittings for the international furniture industry. Our specialities are hot chamber zinc die casting, thermoplastic injection moulding, cold forming and the assembly of parts consisting of different materials.

SC 8/25
For concealed, non-removable cabinet connections in small furniture items and drawers, for use in MDF board and chipboard in combination with wooden dowels.
Both connector components expand synchronously in the drill hole when joining both panel components, the connector is fixed into end position with a gentle tap on the panel components.

SC 8/60
One-piece spreading connector which can be used as a cabinet connector for quick and easy installation of large furniture items and can be disassembled.
For concealed cabinet connections with MDF and chipboard of thickness from 15mm.
For concealed applications, only a 6mm diameter drill hole for securing the connector is visible after installation.

MINIFIX
For industry joiners and cabinet makers, the Minifix connector system has the following special benefits:

- A cost effective method for creating a positive engagement for cabinet assembly.
- Excellent pull-out strength, drilling depth stop ensures ideal bolt position.
- No surface damage caused by insertion and removal of spreading bolt.

RAFIX
Connector housing made from zinc alloy or plastic.
Connector housing without dowel.
With tightening element for tightening and fixing of the components.
Only one drill hole. Small design, With or without rim (zinc alloy housing available only with rim)

SPHINX ELECTRONICS dialock

Sphinx Electronics has been part of the Häfele Group since 1998. It is the company responsible for developing and producing the Dialock electronic locking and access control systems.

Sphinx Electronics are produced in Kenzingen, Germany

EFL 3/3C
Access control furniture lock including lock body and bolt for wood and aluminium doors. Low voltage electric lock for indoor use: For hinged doors, flaps, sliding doors, drawers or tambour doors in furniture, office and store equipment.

DT 700
Electronic access control door terminal set for interior guest room doors. Approved for fire resistant and smoke control doors, with fixed lever handle aperture parts, door back plate internal module with AA batteries. Touch-free access enabled with Dialock key. Fire tested to Australian standards A1530.4 and AS1905.1.

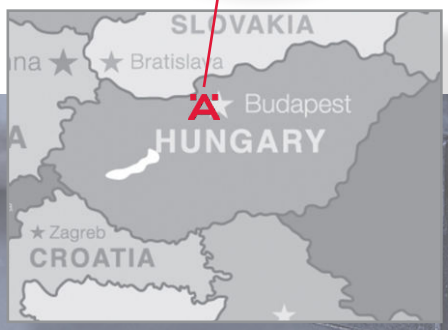

WT 200
For use as authorisation writer and/ or wall terminal block lock function for controlling any type of doors, gates, car park barriers, lights, alarm systems, video surveillance. For indoor and outdoor areas.

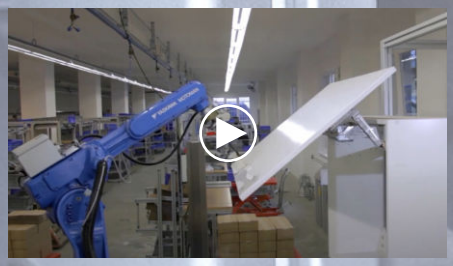

FLAP COMPETENCE CENTRE Lift+Turn

In this plant we produce our Free Family of product, including the Free Space flap system. We also produce various sliding systems mainly for the European market.

Häfele jointly took over the Huwil Produktionsgesellschaft KFT in Budapest in 2009 with Kesseböhmer, including the business segment of flap fittings. In 2014 Huwil was renamed Flap Competence Center Kft.

FREE SPACE
Red Dot Design award-winning Free Space allows Häfele to offer the perfect flap stay solution for all furniture requirements and budgets.
Extremely compact dimensions for cabinets with internal dimensions from 63mm, meaning less installation depth, more storage space. Suitable for flaps up to 650mm height.
Free Space has four way adjustment and attachment to cabinet with one Euro screw and two locating pins.
Free Space is available for flaps with a handle or push to open (PTO) for applications without handles.
Opening angles can be set at 107° or 90°.

FREE FOLD S
Free Fold S is a lift up fitting for a double (bi-fold) flap configuration.
The flap mechanism is suitable for wood and aluminium frame flaps, offering space saving opening with good access to storage.
Even high panels up to 1040mm in height can be lifted in a space saving way.
Minimum opening resistance, multi-position stop function and soft opening and soft closing mechanism for an extremely pleasant operating feeling.
Various adjustment for perfect door alignment.

NIMBUS GROUP

LOOX5

This is where we engineer and develop the LOOX LED lighting for furniture range of product. In Stuttgart Germany Häfele have been a trendsetter and market leader with LOOX, the innovative plug and play LED lighting system for furniture and rooms, since 2011. The product of several years of Häfele engineering and development, LOOX is being used by furniture manufacturers around the globe to set their designs apart.

The architectural brand Nimbus is a LED pioneer and renowned manufacturer of design lights as well as the combination of light and room acoustics.

Click here to view the video

LOOX5
Working with LED lights over the last 100,000 hours globally with our partners in trade and industry has led to the latest generation in LED lighting from Häfele – LOOX5.

Straight down the line thinking from Driver > Distribution > Networking and Illumination, LOOX5 is an Intuitive Plug and Play system with colour coded fittings for 12V and 24v applications

NIMBUS
A comprehensive, integral light solution for high quality interior architecture from a single source, from light in the room to light in furniture and interior fitting. Numerous Nimbus LED ceiling and wall lights – including the coveted classic Modul Q 36 – are now completely compatible with the Häfele LOOX5 system which is used in furniture and interior fitting – individually plannable, easy to install and smart to control.

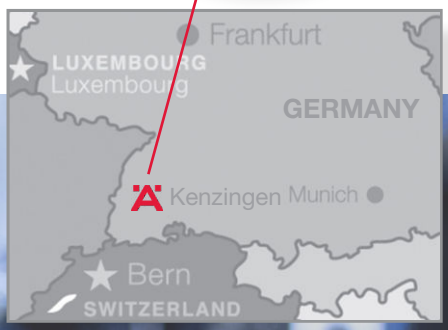

HÄFELE SCHNEIDER KENZINGEN

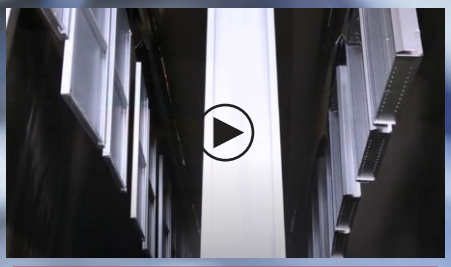

Apart from drawer runners and locking systems, we additionally produce the Matrix drawer runner, Matrix Box P and Matrix Pro Medical drawers systems.

The Häfele Kenzingen plant produces office furniture systems, such as drawer runners, drawers, locking systems or shelves in medium and large series at a high degree of automation.

High investments have been made in the production and development of premium drawer systems and runners.

MATRIX BOX DRAWERS

The Häfele Matrix Box drawer is a double-walled powder-coated steel drawer system, which has 35kg load capacity and full extension runners with integrated soft-close.

The Matrix Box drawer has been independently tested and passed the European DIN EN 15338 level 3 standards. This was achieved with a full 35kg weight capacity over 60,000 opening and closing cycles.

MATRIX PRO MEDICAL

The new Häfele drawer for Healthcare practices and Laboratories. The practical prefabricated drawer made from powder-coated steel saves on the board material as well as the processing of the drawer, thus saving valuable time and costs. In other words: no base, no rear panel, no assembly required – simply fit the front panel.

The Matrix Pro Medical drawer system allows low front panel heights from 61mm, so more drawers can fit into the cabinet.

The low base height of just 1mm makes perfect use of the entire space. The 90° inner walls also ensure optimum space utilisation in the drawer and simplify the use of accompanying tray inserts.

HÄFELE SCHNEIDER JETTINGEN

Here we produce our ironing board, both drawer mounted and wall mounted, SLIDO, Bettlift along with the DressCode wardrobe system. We also produce Pharmaorg which is a system for pharmacies in Europe.

In the Häfele Jettingen plant, functional fittings, desking systems, sliding door fittings and special fittings and customised fitting solutions are developed and manufactured in medium and small series for furniture and projects.

BETTLIFT FOLDAWAY BED FITTINGS
The BETTLIFT Foldaway Bed fittings by Häfele, gives you the opportunity via its functionality to create space in your home. Whether it be a home/office environment or guest bedroom.

Supplied with high quality gas pistons the BETTLIFT glides effortlessly to an open or closed position. The bed feet extend automatically as the bed is opened and retract when closing.

IRONFIX
Häfele's drawer mounted, shelf mounted and wall mounted ironing board, Ironfix, is also produced here at our Jettingen plant. Ideal for homes, hotels, motels, guest houses or holiday homes, the powder-coated steel ironing board folds and rotates through 180° with positioning at intervals of 30°, fully pre-assembled without front connection.
Supplied with ironing board cover.

DRESSCODE FROM HÄFELE
A uniform system to perfectly equip your wardrobe. DressCode is an easy and fast mounting aluminium frame storage system for walk-in wardrobes or shelf systems. This extremely stable frame can be used individually or for customised solutions, both free standing or built into a cabinet installation.

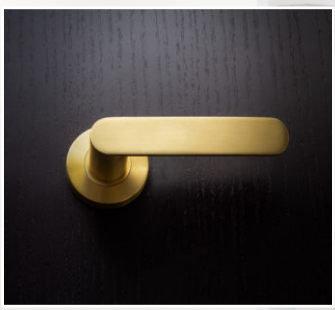

SLIDO
Slido Sliding door fittings are available for timber, glass or aluminium framed doors and are suitable for a wide range of mounting and weight capacities. High quality tracks and running gears combined with soft close mechanisms gives you extremely smooth running characteristics across the entire range. Bi-fold doors, pivot sliding doors and straight sliding doors at any size are well catered for under the Slido brand.

ENGINEERED BY HÄFELE

As well as manufacturing our own range of hardware in our purpose built factories we also engineer products that are made by Häfele approved factories. Häfele is responsible for the ongoing R&D as well as investment and ownership of tooling.

STARTEC LEVER HANDLES DESIGNER SERIES
This collection has always been synonymous with innovation and functionality. The Startec Designer series will now boast 5 superb finishes to choose from: Satin Stainless Steel, Polished Stainless Steel, Satin Brass, Antique Brass and Graphite Black.

These finishes are available in a range of 7 superior quality lever designs, with matching escutcheon, door stop, hinges and door closers.

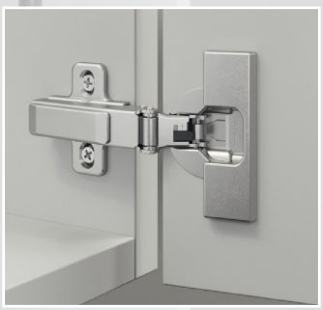

H SERIES HANDLES
Every 2 years Häfele releases a range of new designs from international designers from Germany, Italy and the USA.

Our products are guaranteed German Quality and resistant to chemicals; even some with antibacterial features, which are designed, engineered and production controlled by Häfele.

AXILO™
AXILO™ from Häfele is a revolutionary plinth adjustment system. The combination of the adjusting tool and the plinth adjusting foot makes it easy and convenient to level a kitchen or future item. Like its big brother the AXLIO ™ 78, the AXLIO ™ 48 combines many advantages in a very small space. Erogonimic installation which is easy on the back, time saving, plinth heights from 48 to 200mm and made in Germany.

METALLA HINGES
Whether you need a comfortable all-rounder hinge, a series production hinge or a professional hinge with premium Quality, the Metalla range of hinges - Metalla 50, Metalla 110, Metalla 310 and Metalla 510 is the range you can trust with certified quality.

PRODUCTION & ENGINEERING LOCATIONS

We produce our hardware and fittings at Six locations and export our high quality standards throughout the world in the form of our products and services.
